ISIN:	US88025U1097	FX rate:	0.8609
Product name:	10x Genomics	Date:	9/10/26
Exchange:	NASDAQ - ALL MARKETS	Currency:	EUR
Total Value (in EUR):	€57.32	Number:	1
Order type:	Market Order		

Expected buying cost

BUX transaction cost (commission)	€0.99	1.73%
BUX FX cost	€0.14	0.25%
External transaction tax (FTT)	-	-
External implied trading cost (bid-ask spread)	€0.02	0.03%
Total	€1.15	2.01%

Expected selling cost

BUX transaction cost (commission)	€0.99	1.73%
BUX FX cost	€0.19	0.33%
External implied trading cost (bid-ask spread)	€0.02	0.03%
Total	€1.20	2.09%

Assuming an average holding period of 3 years for this transaction, the total expected cost is €2.35, which will reduce the expected performance by 4.10% in total. This includes both the costs charged by BUX for its services and the external product costs. It includes costs for purchase, sale and costs during the term.

Total cost and cumulative effect on performance	Year 1		Year 2		Year 3		Total	
Expected performance excluding cost	€5.88	10.25%	€6.48	11.30%	€7.14	12.46%	€19.50	34.01%
Expected performance including cost	€4.72	8.24%	€6.48	11.30%	€5.94	10.37%	€17.14	29.91%
Total cost	€1.15	2.01%	€0.00	0.00%	€1.20	2.09%	€2.35	4.10%

Split of total cost during holding period

Total service cost	€2.35	4.11%
Total product cost	€0.00	0.00%
Total cost	€2.35	4.11%

The following assumptions have been made when preparing this cost overview

The long-term annual average return of this product is	10.25%
The average bid-ask spread of this product is	0.06%
The average holding period for this product is	3 years

In addition to the costs per transaction, €2.99 is charged from your cash balance per month, regardless of the number of the transactions. And, an annualised charge of 0.10% on portfolio value above €250,000.00 is charged from your cash balance per month.

Expected Stock lending return: Net annualised returns are calculated by deducting operational costs and 3rd party lending agent fees from the gross rate paid by borrowers. This net annualised rate is then shared 50-50 with the client. As of 6 January 2025, this implies that clients receive approximately 30% of the gross rate paid by borrowers. Please note that these aggregated costs will fluctuate based on actual operational costs incurred by BUX and arrangements with lending agents.

This report aims to give an accurate estimate of the total costs. Actual costs may vary due to changes in market conditions. Both the costs that are charged by BUX and external product costs are subject to change. Despite our best efforts, errors in this report are possible. For some product costs, BUX is dependent on the information provided by the publishers of these products. BUX cannot guarantee this information is complete and correct. You can request an itemised breakdown of the total cost by sending an email to support@bux.com.
